

**SUMMER
2025**

JUNE 22 - JULY 21

Cost = \$2,800*

ABOUT THE PROGRAM:

Immerse in a transformational learning opportunity at the Bali Institute, a premier world-class learning center in beautiful Bali, Indonesia! As you study public health principles and examine health and disease, you will also have the unique opportunity to work with an NGO to investigate, monitor, and identify health problems and hazards in the local Balinese community.

Included

- 29 nights in Balinese-owned hotels in shared rooms.
- All breakfasts, 24 lunches, and 5 dinners.
- Pickup/drop off at Denpasar Airport.
- Field trips and transportation during the program.
- UC Travel Insurance.

Not Included/Out of pocket expenses

- UCI Summer Session fees.
- Transportation from home to airport.
- Round-trip airfare.
- Visa costs (if applicable).
- Additional meals.
- Activities outside of the program itinerary.
- Personal expenses.

*Cost subject to change based on enrollment.

*[Financial aid](#) available for this program.

only **8**

*Reach out to Dr. Zuzana Bic at zbic@hs.uci.edu for questions about course offerings, or contact Arturo Razo at arturor1@uci.edu to find out if the program can fit in your plan of study.

Karen Edward,
PhD

PH 101 Introduction to Epidemiology 4 units

The distribution of disease and injury across time, space, and populations. Covers basic concepts and methods of descriptive epidemiology including the natural history of disease, data, and indices of health.

Matthew Landry,
PhD, RDN, FAND

PH 159 Public Health Nutrition 4 units

The what, why, and how of public health nutrition. Specifically, learners will examine what are the foods that people choose to eat based on dietary guidelines and perceptions about healthy dietary patterns, why people eat the foods they do by examining food politics, marketing, and disparities that exist within the food system, and how to make people's diets better by examining evidence-based solutions that target perceptions, behaviors, and the built environment. Concepts in the course are explored at the individual level and the population level – from clinical practice to epidemiologic research to national policy.

Optional Course

PH 198 Directed Studies 2 units

Student participation in a series of research-related activities performed in an individual or small-group setting under the guidance of a faculty advisor.

BENEFITS

- Earn UCI units abroad.
- Get experience in public health.
- Observe and participate in various public health activities.
- Embrace another culture and engage in active and hands-on learning.
- Add valuable experiences to your resume.
